## Questionnaire for Families

Dear Parents/Guardian:

The class has been looking at the U.S. Census in order to understand the movement of people in and out of our state. We decided to take a census in our families. We will be graphing this information in our next class session. Please help us with this project by filling out the questionnaire below.

**If you are uncomfortable with any question, you do not need to answer it. Please answer for those living in your house yesterday. That means don't count people living somewhere else on that date.**

Questionnaire

1. How many of your family members were born in Arizona?
2. How many girls/women and how many boys/men are in your family?
3. Why does your family stay in Arizona?
4. How long has your family lived in Arizona?
5. How many people are in your family?
6. How do the members of your family get to work?
7. How do members of your family get to school?
8. What are the ages of the people in your family?
