North America (yellow) ______countries
South America (brown) ______ countries

Here’s a question we did together: __________________________
______________________________________________________
______________________________________________________

Here’s how I solved this question:
Countries Count Student Activity Sheet Answer Key

Continents
Color each continent by the color listed below. List the number of countries in each blank.

- Africa (orange) ______52____ countries
- Antarctica (white) ______0____ countries
- Asia (green) ______41____ countries
- Australia (purple) ______3____ countries
- Europe (red) ______39____ countries
- North America (yellow) ______17____ countries
- South America (brown) ______13____ countries

Here’s a question we did together: For example: How many countries are there altogether in North America and South America?

Here’s how I solved this question:

\[
17 + 13 = 30 \text{ countries}
\]

\[
\begin{array}{c}
17 \\
+ 13 \\
\hline
30 \text{ countries}
\end{array}
\]
