Procedures

SESSION ONE

1. Write the lesson objectives on the board. Ask student to read the objectives. Have a word bank with the key vocabulary words listed.
2. Write the word Navajo on the board. Ask the students what they know about the Navajo.
3. Project the Southwestern U.S. map [http://geoalliance.asu.edu/sites/default/files/maps/SWRES.pdf](http://geoalliance.asu.edu/sites/default/files/maps/SWRES.pdf) and locate the Navajo Nation or where the Dine live. Explain that the class will be learning about Navajo culture.
4. Project and discuss the Vocabulary Cards. If possible, bring in extra pictures to show of the Navajo culture and the Navajo’s physical environment.
5. Show an example of a Navajo rug. Discuss what it could be made from and how it could be made. Return to the Vocabulary Cards if necessary.

7. After reading the book, again discuss the book’s illustrations of the process of rug making. (Scaffolding: Comprehensible Input)
8. Use the vocabulary list to identify each picture found at the front of the book. Choral read the words with the group (Grouping: Whole Group), followed by calling on a few students at random to read from the Vocabulary List as you point out pictures. (Scaffolding: Guided Practice) (Integration of Reading, Writing, and Listening; Application: Meaningful, Linked to Objectives, Promotes engagement).
9. If the actual materials are available, have the students line up with the materials in the sequence of making a rug.

SESSIONS TWO AND THREE

Note: If there are time limitations, have students cut out the illustrations included in the lesson or choose the most important steps to sequence and label.

1. Pass out the Picture Cards worksheet. Project the prompt: You are an expert Navajo rug weaver visiting a 4th grade classroom. The teacher has asked you to teach her students how to make a Navajo rug. Design an illustrated storyboard with captions that instructs students, step by step, in the process of weaving a Navajo rug. Use the picture cards provided or draw your own for your illustrations. You should use at least 12 picture cards. You must have the cards in the proper order according to the process of making a rug. Each card should have a caption telling how this item fits into the weaving process. There should be a title to your storyboard.
2. Explain to the students they are to draw pictures of the vocabulary words that would help them explain how to make a rug.
3. Project the illustrations on the front and back inside covers of the book and the illustrations within the book.
4. Choose one step as a model of how to storyboard. (Scaffolding: Modeling)
5. Allow students to work with a partner but they must each have their own storyboard. (Grouping: Partners)

Assessment

**Geography**

Students should be able to answer this question: Name 4 natural resources the Navajos use to make a rug. (Answers can include goats (wool), yucca, water, sun, wood (Ponderosa pine), rabbit bush,
Weaving A Story

Sequence should be:
Window Rock, goat (Geraldine), weaver (Glenmae), shears, yucca soap, carding combs, spindle, yarn, and plant(s) used for dye, dye bucket; wood for loom, and Navajo Rug. Additional cards are pin, batten, comb, and sacking needle which all go between loom and Navajo rug.

Students should be able to say each picture card word or sentence to a partner.
