Relating The 5 Themes of Geography to the 5 "W's"

Work with a partner and review the article you just read in class and the 5 themes listed below:

- Where: Location (Explain where the place is located)
- Why or How: Region (Explain how it is like other places)
- What: Place (Explain what you see there)
- Why or How: Human/Environment Interaction (Explain how people have changed the place or how people have changed from being there)
- Who or What: Movement (Explain how people, things, and ideas get in and out of the place)

List the "W" on the left side of this worksheet and its corresponding theme on the right side. Use your highlighted parts of the article.
