Arizona English Language Proficiency Standards

Grade 6-8

Basic

Listening and Reading
Standard 1 By the end of each language proficiency level, an English learner can construct meaning from oral presentations and literary and informational text through grade appropriate listening, reading, and viewing.
B-1: determine the central idea or theme and explain how they are supported by using some text evidence.
B-2: recount specific details and information in a variety of texts.

Speaking and Writing
Standard 3 By the end of each language proficiency level, an English learner can speak and write about grade appropriate complex literary and informational texts and topics.
B-3 compose informational text that includes details to develop a topic while using appropriate conventions.
B-5: use examples of precise language and domain-specific vocabulary within informative texts.

Listening, Speaking, Reading, and Writing
Standard 7 By the end of each language proficiency level, an English learner can conduct research and evaluate and communicate findings to answer questions or solve problems.
B-1: gather information from multiple provided resources to answer questions.
B-2: paraphrase observations/information notes with labeled illustrations, diagrams, or other graphics, as appropriate.
B-3: cite sources used in research.
Standard 9 By the end of each language proficiency level, an English learner can create clear and coherent grade-appropriate speech and text.
B-1: introduce and present facts about an informational topic and provide a conclusion when writing and speaking.
Henrietta Lacks and The Great Migration

Overview

Fighting disease took a big leap ahead when scientists discovered cells taken (without her permission) from Henrietta Lacks could be used to study and create treatments and cures for cancer and other diseases. This use of her cells brings up several aspects of study for students. 1) Who was Henrietta Lacks and how did she contribute to our knowledge of cancer? 2) Is it ethical for companies to profit from Henrietta’s malignant tumor cells? 3) What does The Great Migration of the early 1900s have to do with Henrietta Lacks?

Purpose

In this lesson, through the use of various primary and secondary sources, students will learn about the push-pull factors that affected African Americans in rural areas of our country as they made decisions on joining The Great Migration in the early 1900s. It also exposes students a little-known fact that medical science uses the cells taken from Henrietta Lack to create new treatments and vaccines. This use of her cells, without her permission, brings up questions of medical ethics.

Key Vocabulary

- Reconstruction - time of rebuilding the South and protecting African Americans’ rights after the Civil War
- sharecropping - the practice of farmers, living on the land, giving a portion of harvest to the landowner as rent
- agriculture - raising crops and livestock as food or for use in products
- The Great Migration – (1910-1970) over six million African Americans, living in the South, moved to northern cities
- economic - conditions related to the production and consumption of goods and services
- parcel - a piece of land defined by specific boundaries
- Jim Crow Laws - legalized segregation of communities based on race

Materials

- Notebook paper
- Post-It Notes
- Labels: “Push Factors” and “Pull Factors”
- Vocabulary Cards cut apart and in envelopes or some other container
- Henrietta Lacks and The Great Migration book [link]
- Reading Guide
- Primary and Secondary Sources Processing Sheet and Answer Key
- Primary and Secondary Source Materials (1-6)
- Writing Prompt Options
- Primary Source: Letter from Johann Bonkowski
- Friendly Letter
- Vocabulary Test and Answer Key
- HeLa Cells reading

Objectives

The student will be able to:

1. Analyze primary and secondary sources to identify author purpose and push-pull factors of The Great Migration
2. Identify financial risks and economic production impacting a decision to migrate or stay in an area production, that affect the choice to remain in an area or migrate
3. Analyze their own feelings about the use of HeLa cells by pharmaceutical companies without the permission of the owner or her family.

Procedures

SESSION ONE

Prior to this Session: Place 2 labels on the walls: Push and Pull. Write on the whiteboard the Vocabulary Words for this lesson. Have Vocabulary Cards cut in three sections, enough for small groups to have one set of the words.

Engage:

1. Have students take out some paper and a writing tool. Ask students: “Think about a place that you love. It should be somewhere you feel comfortable so that when you are there, you know you are free to be your true self. Or you can imagine what a place might be like where you would feel comfortable, confident, and joyful.” (Preparation: Linking to Background)
Henrietta Lacks and The Great Migration

2. Tell students: “Write down at least three characteristics of this place, the people or experiences that make this place feel so inviting for you.”

3. Ask: “What two factors or negative experiences that could happen in this place would make you consider never returning to this place that you love?

4. Distribute two Post-It notes to each student. Invite students to share with a partner at least one factor that would make them leave and one factor that would prevent them from leaving this favorite location. Have students write their responses on the Post-It notes (one for leaving and one for not leaving). (Integrating Processes: Speaking, Writing, and Listening; Grouping Option: Independent and Partners)

5. Define Pull factors as those things that drive a person away from their home. Have students select their Pull It that describes a reason for leaving a place and attach it near the label Pull. (Application: Promotes engagement, Linked to objectives)

6. Read off the pull factors. Invite the whole group to share patterns that they notice in similarities or differences.

7. Repeat steps 5 and 6 for factors that could prevent you from wanting to leave this place, even if it became difficult to continue to be in your favorite place. These are Pull factors. (Application: Promotes engagement, Linked to objectives)

8. Explain that Pull factors also include the things that are drawing you to the new place. Have students think of factors of a new location that makes you want to move and live there. (Integrating Processes: Speaking and Listening; Grouping Option: Whole class)

Explore:

9. Read through the seven vocabulary terms written on the whiteboard. Invite students to share any observations, connections, or prior knowledge they have about the words. (Preparation: Linking to background or past learning)

10. Distribute the cut-up Vocabulary Cards to small groups of students. Have groups match their image with the correct vocabulary term and definition (Application: Promotes engagement)

11. Have students do a Quick Write on notebook paper incorporating the vocabulary terms into one or two paragraphs. Students can then share with a partner their Quick Write. (Integrating Processes: Writing and Speaking)

SEAN TWO

Explain:

12. Distribute the Reading Guide and explain the directions. Read as a class, Henrietta Lacks and The Great Migration book found at: https://read.bookcreator.com/TdHzw0o0HxBMbwVcANrpWW1WQX2/l4lZh4qN5xGYYzZDoQsd dWA. As the book is read, have students analyze the pictures, discuss the questions at the bottom of each page, and complete the Reading Guide. Reading the book twice will help students. (Scaffolding: Comprehensible Input)

13. Project YouTube video “PushPull Factors” (1.57 min) https://www.youtube.com/watch?v=rF86TGM3e SE As factors are identified in the video, record them on the whiteboard under Push or Pull labels. Have students add to the lists at the end of the video.

14. Distribute the Primary and Secondary Source Processing Sheet. Have students contribute ideas for the push/pull factors from The Great Migration book and complete the first two questions. (Application: Linked to objectives)

Elaborate:

15. Distribute the Primary and Secondary Source Materials packet. Instruct students not to write on these pages.

16. Model the process of analyzing a primary source by reading the map and information presented in Sources 1 and 2. (Scaffolding: Modeling, Guided practice)

17. Assign students to groups of four. Give each student in the group a different primary source (Sources 3-6. Students will independently read and respond to questions about their source.

18. Students will then share their findings about the primary source with their larger group of four students, first describing the source and then reviewing the answers to the corresponding questions on the Factors and Primary and Secondary Sources Processing Sheet. (Integrating Processes- Reading and Writing; Grouping Option: Independent, Small group)

19. If time, review vocabulary by covering up a word / definition/ image and asking students to identify the correct vocabulary term. (Application: Linked to objectives)

SESSION THREE

Evaluate:

20. Begin the session by projecting and reading the Writing Prompt Options and explain that the letter will be graded for Content and Ideas on the 6 Traits Writing Rubric. Read and discuss...
Henrietta Lacks and The Great Migration

the letter entitled Primary Source: Letter from Johann Bonkowski.

21. Distribute the Writing Prompt Outline and model how it could be filled out. Allow time for students to complete the outline working with partners if preferred. (Scaffolding: Modeling)

22. As students complete their outline, have them turn the outline into a letter.

23. For diverse learners who may need extra help, distribute the Friendly Letter template that uses sentence starters to help students compose the letter. (Preparation: Adapting content)

24. End the session by having students take the Vocabulary Test and read HeLa Cells. Have students write a reflection based on their opinion of this event in medical history. What was right about the situation? What was wrong? Any other impressions.

Assessment

Geography and ELA

The Reading Guide can be graded for accuracy and completeness. Mastery will be considered a score of 80% or higher.

The Factors and Primary and Secondary Sources Processing Sheet can be graded for accuracy and completeness. Mastery will be considered a score of 80% or higher.

The letter can be graded using the 6 Traits Writing Rubric with a focus on Content and Ideas. Mastery will be considered a score of 4 or higher.

The Vocabulary Test can be used to measure language acquisition. Mastery will be considered a score of 80% or higher.

Science

The reflection based on the HeLa Cells reading can be graded. Points can be assigned for supporting their opinion of what was right and wrong about this event. (Assessments: Written, Individual)

Extensions

Explore Henrietta Lacks’ cell use as an introduction to a unit on cells or about bioethics. Then, have students use a toothpick to scrape off cheek cells, preparing a blank slide with a stain such as red food coloring, to observe cells. See intro clip here: https://www.youtube.com/watch?v=22lGbAVWhro

Explore research done with HeLa cells. https://osp.od.nih.gov/scientific-sharing/hela-cells-timeline/

Explore mitosis, mutations, and errors which can cause cancer. Watch YouTube Video on How do cancer cells behave differently from healthy ones? (3.50 min) https://www.youtube.com/watch?v=BmFEoCFDi-w

Have students watch YouTube Video on Oprah Speaks to Tell Story of Henrietta Lacks (3.17 min) https://www.youtube.com/watch?v=fd9NITWpcp0
