

Name _____

Understanding a Temperature Map

<https://weather.com/maps/averages/normal-temperature>

Reference Points

- √ Average high temperature in the 10s would be freezing weather where you cannot stay outside very long. You would need lots of clothing to keep warm.
- √ 20s would be a little warmer but still freezing outside. You still need lots of clothing.
- √ 50s would be fine to work outside with some warm clothing.
- √ 60s is average weather for southern AZ in the winter. Most people will wear something to keep them warm but not lots of clothing.
