Overview

It is the quiet, often forgotten people, which have the biggest and most lasting impact. It is through stories of such individuals that our students can be influenced in their own personal lives.

Purpose

In this lesson students will gain a better understanding of the people behind the Holocaust

through the use of maps and primary sources with a focus on Irena Sendler.

Materials

- World War II Political map of Europe (from a textbook or historical atlas)
- Map of the Warsaw Ghetto
<http://www.deathcamps.org/occupation/warsaw%20ghetto.html>
- Physical Map of Europe (from a textbook or historical atlas)
- Image Analysis Worksheet with Geographic Lens
- Note Taking Worksheet
- Irena Sendler PowerPoint
- Jar with Jellybeans (500)
- Teacher's Notes for PowerPoint
- Map Worksheet
- The Deportation of Jews Image

Objectives

The student will be able to:

1. Identify key features of a map that would help or hinder movement.
2. Analyze a primary source for meaning.
3. Analyze the cultural impacts of taking in a child of a different religion.

Procedures

Prerequisite Skills: Students should have a general knowledge of WWII, the Holocaust, and how primary and secondary sources differ.

Prior to the Lesson: Download the map of the Warsaw Ghetto. Select one photo from the lesson PowerPoint or use the Deportation of Jews Image to be the focus of the Image Analysis.

SESSION ONE and TWO

1. Anticipatory Set: As students walk in, have a jar of jellybeans on a table for students to see. Have students guess how many jellybeans might be in the jar. After a few guesses, tell students to imagine that each jelly bean represents a child that one person physically helped to save. Tell students we will discuss this further as we get into the lesson.
2. Distribute the Map Worksheet as well as a World War II Political Map of Europe from a textbook or atlas. Tell students that they are now going to plot their escape from Poland. Students can be paired up or work individually to complete the first section of the worksheet.

3. After students have completed Section One, have the students find a Physical map of Europe and complete Section Two of the worksheet.
4. As students finish that part, distribute the Warsaw Ghetto Map and have students complete Section Three.
5. Once students are done with the Map Worksheet, review the differences between primary and secondary sources. Then distribute copies of the note taking worksheet and Image Analysis Worksheet with Geographic Lens. Start the Irena Sendler PowerPoint and have students complete the note taking worksheet on overall impressions of the photos. Select one photo from the PowerPoint (or project The Deportation of Jews Image) for the students to analyze with the Image Analysis Worksheet with Geographic Lens. See Teacher's Notes for taking points during the PowerPoint.
6. Closure: Show the Jellybean Jar to the students and tell them that there are 500 Jelly beans, one for every 5 children that Irena Sendler saved.

Assessment

ELA and Geography

The Map Worksheet and Image Analysis Worksheet can be graded for accuracy and completeness. Mastery will be considered 80% or higher.

Extensions

1. Have students research and create a presentation on another Righteous Gentile of World War II.
2. Have students compare and contrast the relocation of Jews in the Holocaust to the relocation of Cherokee, Apaches, or Navajos in the United States.
3. Watch the video "I'm Still Here: Real Diaries of Young People Who Lived During the Holocaust" (2005) and have students compare these stories to what they've already learned.
