

The Five Themes of Geography

1. *Location*: Where is it?
 - A. Absolute location: the point where 2 lines intersect (latitude & longitude, streets, addresses)

 - B. Relative location: where it is in relation to something else (north of.., across from.. etc.)

2. *Place*: What's it like there?
 - A. Physical characteristics (landforms, bodies of water, climate, soil, natural vegetation, animal life)

 - B. Human characteristics (population density, language patterns, religion, culture, political systems)

3. *Human/Environment Interaction*: What is the relationship between humans and their environment?
 - A. How humans depend on the environment (basic needs: food, shelter, clothing)

 - B. How humans modify the environment (construct dams, plow & irrigate fields, dig mines, build houses, schools, and shipping centers)

 - C. How humans adapt to the environment (air conditioning in the southwestern U.S.)

4. *Movement*: How and why are places connected with one another?
 - A. Transportation and communications systems (highways, rivers, air & ship routes, telephone lines)

 - B. People (ideas, food, language)

 - C. Physical Systems (wind, rain, weather)

5. *Regions*: How and why is one area similar to, or different from, another area?
 - A. Physical characteristics: climate, landforms (the desert southwest, the peaks and valleys of the Rocky Mountains)

 - B. Human characteristics: economic & political systems, social & cultural concerns (Quebec, the South, Scandinavia)
