Tornado and Lightning Pages

Tornado ← lightning

Stay away from metal objects or anything that will conduct electricity.

Stay indoors during thunderstorms.

The only safe place to be in a strong tornado is a windowless interior.

Also, a car is one of the most dangerous places to be!

The safest place to be is in a car with the windows rolled up!

Get under a low piece of furniture.

Hurricane and Earthquake Pages

Hurricane **Earthquake**

If you're in a mobile home, move to a better shelter quickly.

When the storm's over, watch out for fallen trees or poles.

Do not ever go outside!!

Stand by a doorway that is strong to protect you!

Usually there will be warnings so watch and listen for them.

If you are left outside, go to an open area with no buildings or other objects nearby.

These student examples illustrate pages from a second completed student booklet.

Hurricane safety.....5

Cool it in the air.....1

Try to stay in air conditioned or cool buildings.

Wear light colored clothing to protect your skin from burning.

Most importantly drink plenty of water to keep your body from overheating.

Freezing and Flash Flood Pages

Protect your self from freezing.

Mittens will keep hands warmer than gloves.

Take extra food and extra clothing along. Have blankets, sleeping bags, matches, & shovel.

You must keep snow shoveled away from the car.

Flash flood warning

Floods can occur in mountain areas or small streams, or in the middle of big cities.

If you're going hiking in a valley, close to mountains or near a small stream or a dry wash, be on the lookout for rainy weather.

It is important not to walk or drive a car through flash flooded areas.

Hurricane and Earthquake Pages

Warning signs of

Stay indoors during thunderstorms.

Stay away from opened windows and electric.

The safest place is in a car with the windows rolled up.

Hurricane safety.

Driving one hundred miles or more inland may save your life.

Leave the area if you are asked by a local official.

There's nothing anyone can do to protect property when a hurricane arrives.
